November 22, 2004

Dear Dr. Kajino:

I have the honor of informing you that the Council of the American Physical Society at its November 2004 meeting acted favorably on your nomination for Fellowship in the Society upon the recommendation of the Forum on International Physics. As you may know, election to Fellowship in the American Physical Society is limited to no more than one half of one percent of the membership. Election to APS Fellowship is recognition by your peers of your outstanding contributions to physics.

The citation, which will appear on your Fellowship Certificate, will read as follows:

"For significant contributions to nuclear astrophysics and theoretical nuclear physics and for the promotion of scientific exchange between Japan and the international community."

Your name and Fellowship citation, as well as the others elected to Fellowship this year will be published in the March 2005 issue of *APS News*. It also will appear on the Fellowship Page of the APS Home Page [<http://www.aps.org>]. Presentation of fellowship certificates is usually done at the annual meeting of the unit through which you were elected. If you have any questions regarding the presentation of your certificate, please contact the Secretary/Treasurer of your sponsoring unit (division, forum or topical group). Announcement of your election can be sent to your supervisor or institution public affairs office upon request (please send us the relevant contact information).

Congratulations on being elected a Fellow of the American Physical Society.

Very truly yours,

Alan Chodos
